

# IP recordals made easy

Get your IP changes recorded - without the hassle

Managing recordals involves a lot of administration and can be very complex and time-consuming.

Envoy can make things easier by managing the whole process for you, so your IP ownership continues seamlessly.

Visit [envoyrenewals.com](http://envoyrenewals.com) for an all-inclusive quote.

## Hassle-free recordals

We prepare all the documents for you, so you don't need to get bogged down with paperwork. We ensure that the required forms are signed, collated and sent off to the relevant associates and IP offices on your behalf.

As well as saving administration, you don't need to spend time researching IP laws in different territories. We use our network of global IP attorneys to get the local knowledge we need for your recordals. This also saves you having to contact foreign associates for prices - we do all of that for you, so you only need to deal with us.

You can record changes in ownership, licences and name/address in any jurisdiction. Just choose the currency and place one quick instruction. And to keep things simple, we will send you one invoice that covers everything.

**You don't need to be an Envoy renewals customer to use our recordals service.** Just request a quote and we'll come back to you with an all-inclusive price. Existing customers can instruct a recordal at the same time as a renewal or separately as required.

## Cost certainty and better forecasting

You will have cost certainty with our fixed fees, which also means that you can be more accurate with budget forecasting. You can see exactly what you're paying with our transparent prices, and our bulk discount means you can save even more if you have a recordals project.

- ✓ Save lots of administration
- ✓ No need for local knowledge
- ✓ Deal with one supplier for everything

## Cut your recordals bill

Just visit [envoyrenewals.com](http://envoyrenewals.com) to get a quote.

There is no obligation - and remember we offer bulk discounts on recordal projects.
